

Request for Quotation – Combination CT and Disconnect

In order to properly quote a CT and disconnect cabinet, ***we must know which utility service area it is being installed in.*** If the utility is one in which we are not already approved, utility approval will be required before ordering.

All Commercial Metering equipment ***must be quoted and purchased through an electrical distributor or supply house.*** Any electrical distributor can purchase from Erickson Electric.

Please provide as much of the following information as is available:

- Electrical Utility service area * required *
- Ampacity
- System
- Service voltage
- Type of disconnect (fused switch or circuit breaker)
- Line entry: Top/Bottom
- Load exit: Top/Bottom
- Size of line and load conductors
- Wall mounted or Pad mounted (free-standing)

For a quote, please email the information above to sales@ericksonelectric.com
